CAREER CONTOUR

Mysoftway Technology and IT Consultancy , Ichalkaranji

Full Stack Developer

Nov 2023 - Now

- Gaining hands-on experience with Angular, Ionic, Laravel, and MySQL for full-stack web and mobile development.
- Designing responsive user interfaces and implementing RESTful APIs to support dynamic data and CRUD operations.
- Continuously improving debugging and troubleshooting skills by identifying and resolving issues during testing and deployment.

Full Stack Developer Intern

Aug 2023 - Oct 2023

- Strengthened problem-solving skills through logic-driven tasks and real-world technical assignments, while gaining a solid foundation in Angular for frontend development.
- Developed an understanding of UI/UX principles, component-based architecture, and responsive design fundamentals.

PROJECTS

Cross Platform Marketing App

Tech Stack: Angular, Ionic, SQL

- Developed a mobile and web application for door-to-door marketing agents, digitizing tea product sales and reducing paper-based tracking by 90%.
- Created an admin dashboard to oversee agent activity, enabling real-time monitoring and improving decision-making efficiency by 40%.
- Contributed to backend tasks like API integration and data handling with MySQL.

AZ2Admission Portal

Tech Stack: Angular, Laravel , Ionic

- Developing a student portal application to simplify access to academic information and streamline application processes.
- Creating an admin interface for managing content and student data, reducing manual administrative work by 70%.
- Enhancing the frontend structure for better mobile responsiveness and an improved overall user experience.
